Statement Analysis (15 Tests)

TEST NO.	SYLLABUS / THEME	ELIMINATION STRATEGY & FOCUSING AREAS
Test 1	Statement Analysis: History: Ancient & Medieval	Spotting extreme words ('only', 'always', 'never') in accounts of Maurya/Gupta administration and Delhi Sultanate.
Test 2	Statement Analysis: History: INM & Modern India	Identifying contradictory statements in ideological clashes (Moderates vs Extremists) and timeline anachronisms.
Test 3	Statement Analysis: TN History: Unit 8 (Sangam & Leaders)	Analyzing absolute statements regarding Sangam literature themes and exaggerated claims about TN reform movements.
Test 4	Statement Analysis: Polity: Fundamental Rights & DPSP	Differentiating mandatory ('shall') vs advisory ('may') clauses, and identifying absolute rights vs reasonable restrictions.
Test 5	Statement Analysis: Polity: Executive & Parliament	Eliminating statements that confuse President/Governor powers or Lok Sabha/Rajya Sabha exclusive privileges.
Test 6	Statement Analysis: Polity: Constitutional Bodies	Spotting false overlaps in jurisdiction (e.g., ECI vs SEC) and incorrect appointment/removal conditions.
Test 7	Statement Analysis: Geography: Physical & Climate	Applying cause-and-effect logic to eliminate reversed statements (e.g., pressure vs temperature relationships).
Test 8	Statement Analysis: Geography: Indian Rivers & Soils	Filtering extreme absolute statements regarding monsoon rainfall distribution and soil fertility constraints.
Test 9	Statement Analysis: TN Geography: Unit 9	Identifying exaggerated industrial metrics or physically impossible geographic phenomena in Tamil Nadu districts.

TEST NO.	SYLLABUS / THEME	ELIMINATION STRATEGY & FOCUSING AREAS
Test 10	Statement Analysis: Economy: Macro & Banking	Filtering out conflicting directional trends (e.g., inflation rising while interest rates drop).
Test 11	Statement Analysis: Economy: TN Development Admin (Unit 9)	Spotting incorrect extreme claims regarding TN's HDI, GSDP rankings, and poverty eradication.
Test 12	Statement Analysis: Science: Physics & Chemistry	Eliminating statements that violate fundamental conservation laws or misapply basic physical principles.
Test 13	Statement Analysis: Science: Biology & Health	Filtering out absolute cures, universal applications, or mismatched vectors/diseases.
Test 14	Statement Analysis: Environment & Ecology	Spotting 'endemic to all of India' or 'naturally found nowhere else' extreme traps in species distributions.
Test 15	Statement Analysis: Current Affairs: Schemes & Policies	Spotting exaggerated beneficiary targets, incorrect ministries, or 'only for' clauses in Govt schemes.

✗ Option Elimination (15 Tests)

TEST NO.	SYLLABUS / THEME	ELIMINATION STRATEGY & FOCUSING AREAS
Test 16	Option Elimination: History: Chronological Elimination	Using broad era knowledge (e.g., BCE vs CE, 18th vs 19th Century) to instantly eliminate impossible contemporary figures.
Test 17	Option Elimination: History: Geographical Elimination	Eliminating South Indian dynasties from North Indian events, and vice versa (e.g., Marathas in Assam).
Test 18	Option Elimination: Unit 8: Literature & Authors	Eliminating modern authors from Sangam questions, or mismatching Bhakti saints with their respective deities (Saivite vs Vaishnavite).
Test 19	Option Elimination: Polity: Jurisdictional Mismatch	Eliminating options applying state-level powers to Union lists, or High Court powers to the Supreme Court.
Test 20	Option Elimination: Polity: Constitutional Math	Using logic of majorities (simple vs special) to eliminate incorrect amendment procedures.
Test 21	Option Elimination: Geography: Latitude/Longitude Logic	Eliminating crop or forest types that physically cannot exist in the given latitude (e.g., Equatorial forests in Rajasthan).
Test 22	Option Elimination: Geography: River Basin Elimination	Using left-bank vs right-bank logic and origin states to eliminate false tributary options.
Test 23	Option Elimination: Economy: Institutional Elimination	Matching the right apex body to the sector (e.g., eliminating SEBI from banking, RBI from stock market).

TEST NO.	SYLLABUS / THEME	ELIMINATION STRATEGY & FOCUSING AREAS
Test 24	Option Elimination: Unit 9: Scheme Beneficiary Elimination	Using the name of the TN scheme to logically deduce and eliminate wrong target demographics (e.g., Moovalur Ramamirtham).
Test 25	Option Elimination: Science: Prefix/Suffix Elimination	Using scientific nomenclature roots (e.g., '-itis' for inflammation, 'hema-' for blood) to eliminate wrong diseases.
Test 26	Option Elimination: Science: Scale & Magnitude Elimination	Eliminating absurd values for physical constants, speeds, or biological sizes (e.g., virus sizes in millimeters).
Test 27	Option Elimination: Environment: IUCN Status Logic	Eliminating 'Least Concern' species from critical conservation program options.
Test 28	Option Elimination: Current Affairs: Ministry Mismatch	Eliminating socio-economic schemes mistakenly attributed to Defense or Finance ministries.
Test 29	Option Elimination: Current Affairs: Index/Report Logic	Matching global indices to their logical parent organizations (e.g., WB vs IMF vs WEF).
Test 30	Option Elimination: General Studies: 'Match the Following' Hacks	Mastering the 'find one sure match to eliminate 3 options' technique across all subjects.

Intelligent Guessing (10 Tests)

TEST NO.	SYLLABUS / THEME	ELIMINATION STRATEGY & FOCUSING AREAS
Test 31	Intelligent Guessing: Etymology & Root Words in Unit 8	Deducing the meaning of ancient Tamil administrative or tax terms by breaking down the root words.
Test 32	Intelligent Guessing: Scientific Terminology Decoding	Guessing chemical or biological functions by translating Latin/Greek prefixes in options.
Test 33	Intelligent Guessing: Constitutional Article Range Logic	Guessing correct articles by knowing part blocks (e.g., knowing President is 52-62, eliminating 70s).
Test 34	Intelligent Guessing: Scheme Acronym Expansion	Expanding PM or CM scheme acronyms (e.g., PM-KISAN, Makkalai Thedi Maruthuvam) to guess the exact objective.
Test 35	Intelligent Guessing: Economic & Financial Logic	Applying basic supply-demand logic; if option A leads to option B, they cannot be mutually exclusive answers.
Test 36	Intelligent Guessing: Future Tech 'All of the Above' Rule	When to logically guess 'All of the above' for potential applications of AI, Nanotech, or Space tech.
Test 37	Intelligent Guessing: Geographical Terrain Profiling	Guessing tribal populations or local industries based on the known terrain of a TN district.

TEST NO.	SYLLABUS / THEME	ELIMINATION STRATEGY & FOCUSING AREAS
Test 38	Intelligent Guessing: Historical Motivations	Guessing the outcome of a British policy by understanding their underlying economic motivations (drain of wealth).
Test 39	Intelligent Guessing: Eliminating the Outlier	Identifying the psychological 'odd one out' option that the examiner planted as a distractor.
Test 40	Intelligent Guessing: The 'Middle Path' Strategy	When faced with numerical values or dates, logically eliminating the highest and lowest extreme options.

Trap Questions (10 Tests)
