

# PREVIOUS YEAR QUESTIONS (PYQ) SERIES

UNDERSTAND UPSC • DECODE THE PATTERN • MASTER THE QUESTIONS

120 Tests | 6,000 Questions | 30 Years of UPSC Prelims Mastery

1995-2005 (20) • 2006-2015 (20) • 2016-2025 (20) • Subject-Wise (40) • Trend Analysis (20)

## Part 1: UPSC 1995–2005 Era PYQs (Tests 1–20)

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 1	UPSC 1995 Prelims Pattern Decoder: History & Culture Foundation	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Ancient administrative terms, Mauryan pillars, Bhakti saints, and early modern land settlements.
Test 2	UPSC 1995 Prelims Pattern Decoder: Physical & World Geography Basics	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Planetary wind patterns, classic geomorphological formations, and ocean current paths.
Test 3	UPSC 1996 Prelims Pattern Decoder: Indian Polity: Constitutional Core	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Evolution of fundamental rights, early landmark amendments, and parliamentary privileges.
Test 4	UPSC 1996 Prelims Pattern Decoder: Macroeconomics & Fiscal Policy Essentials	Deconstructing standard question frames of the late 90s/ early 2000s; focus on National income definitions, primitive taxation models, and early planning commission milestones.
Test 5	UPSC 1997 Prelims Pattern Decoder: Foundational Science & Ecosystems	Deconstructing standard question frames of the late 90s/ early 2000s; focus on General biology parameters, conventional diseases, public health measures, and core ecology models.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 6	<b>UPSC 1997 Prelims Pattern Decoder: History &amp; Culture Foundation</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Ancient administrative terms, Mauryan pillars, Bhakti saints, and early modern land settlements.
Test 7	<b>UPSC 1998 Prelims Pattern Decoder: Physical &amp; World Geography Basics</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Planetary wind patterns, classic geomorphological formations, and ocean current paths.
Test 8	<b>UPSC 1998 Prelims Pattern Decoder: Indian Polity: Constitutional Core</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Evolution of fundamental rights, early landmark amendments, and parliamentary privileges.
Test 9	<b>UPSC 1999 Prelims Pattern Decoder: Macroeconomics &amp; Fiscal Policy Essentials</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on National income definitions, primitive taxation models, and early planning commission milestones.
Test 10	<b>UPSC 1999 Prelims Pattern Decoder: Foundational Science &amp; Ecosystems</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on General biology parameters, conventional diseases, public health measures, and core ecology models.
Test 11	<b>UPSC 2000 Prelims Pattern Decoder: History &amp; Culture Foundation</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Ancient administrative terms, Mauryan pillars, Bhakti saints, and early modern land settlements.
Test 12	<b>UPSC 2000 Prelims Pattern Decoder: Physical &amp; World Geography Basics</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Planetary wind patterns, classic geomorphological formations, and ocean current paths.
Test 13	<b>UPSC 2001 Prelims Pattern Decoder: Indian Polity: Constitutional Core</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Evolution of fundamental rights, early landmark amendments, and parliamentary privileges.
Test 14	<b>UPSC 2001 Prelims Pattern Decoder: Macroeconomics &amp; Fiscal Policy Essentials</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on National income definitions, primitive taxation models, and early planning commission milestones.
Test 15	<b>UPSC 2002 Prelims Pattern Decoder: Foundational Science &amp; Ecosystems</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on General biology parameters, conventional diseases, public health measures, and core ecology models.
Test 16	<b>UPSC 2002 Prelims Pattern Decoder: History &amp; Culture Foundation</b>	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Ancient administrative terms, Mauryan pillars, Bhakti saints, and early modern land settlements.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 17	UPSC 2003 Prelims Pattern Decoder: Physical & World Geography Basics	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Planetary wind patterns, classic geomorphological formations, and ocean current paths.
Test 18	UPSC 2003 Prelims Pattern Decoder: Indian Polity: Constitutional Core	Deconstructing standard question frames of the late 90s/ early 2000s; focus on Evolution of fundamental rights, early landmark amendments, and parliamentary privileges.
Test 19	UPSC 2004 Prelims Pattern Decoder: Macroeconomics & Fiscal Policy Essentials	Deconstructing standard question frames of the late 90s/ early 2000s; focus on National income definitions, primitive taxation models, and early planning commission milestones.
Test 20	UPSC 2004 Prelims Pattern Decoder: Foundational Science & Ecosystems	Deconstructing standard question frames of the late 90s/ early 2000s; focus on General biology parameters, conventional diseases, public health measures, and core ecology models.

## Part 2: UPSC 2006–2015 Era PYQs (Tests 21–40)

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 21	UPSC 2006 Core Syllabus Mapping: Modern History & Art Masterclass	Tracking the transition to conceptually dense formats; emphasis on Swadeshi movement triggers, tribal uprisings, Temple architecture nuances, and classical dance forms.
Test 22	UPSC 2006 Core Syllabus Mapping: Indian Physical & Agricultural Geography	Tracking the transition to conceptually dense formats; emphasis on Monsoon dynamic theories, ICAR soil types, specific crop water requirements, and multi-purpose river basins.
Test 23	UPSC 2007 Core Syllabus Mapping: Polity: Organs of Governance	Tracking the transition to conceptually dense formats; emphasis on Discretionary powers of the Governor, judicial review vs activism boundaries, and PRIs 73rd/74th deficits.
Test 24	UPSC 2007 Core Syllabus Mapping: Money, Banking & Applied Macroeconomics	Tracking the transition to conceptually dense formats; emphasis on Monetary aggregates (M1 to M4), RBI liquidity control variables, inflation indices (WPI vs CPI), and BoP crises.
Test 25	UPSC 2008 Core Syllabus Mapping: Environment Acts & Emerging Technologies	Tracking the transition to conceptually dense formats; emphasis on Wildlife Protection Act 1972 fundamentals, global warming potential gases, space launches, and early biotechnology tools.
Test 26	UPSC 2008 Core Syllabus Mapping: Modern History & Art Masterclass	Tracking the transition to conceptually dense formats; emphasis on Swadeshi movement triggers, tribal uprisings, Temple architecture nuances, and classical dance forms.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 27	<b>UPSC 2009 Core Syllabus Mapping: Indian Physical &amp; Agricultural Geography</b>	Tracking the transition to conceptually dense formats; emphasis on Monsoon dynamic theories, ICAR soil types, specific crop water requirements, and multi-purpose river basins.
Test 28	<b>UPSC 2009 Core Syllabus Mapping: Polity: Organs of Governance</b>	Tracking the transition to conceptually dense formats; emphasis on Discretionary powers of the Governor, judicial review vs activism boundaries, and PRIs 73rd/74th deficits.
Test 29	<b>UPSC 2010 Core Syllabus Mapping: Money, Banking &amp; Applied Macroeconomics</b>	Tracking the transition to conceptually dense formats; emphasis on Monetary aggregates (M1 to M4), RBI liquidity control variables, inflation indices (WPI vs CPI), and BoP crises.
Test 30	<b>UPSC 2010 Core Syllabus Mapping: Environment Acts &amp; Emerging Technologies</b>	Tracking the transition to conceptually dense formats; emphasis on Wildlife Protection Act 1972 fundamentals, global warming potential gases, space launches, and early biotechnology tools.
Test 31	<b>UPSC 2011 Core Syllabus Mapping: Modern History &amp; Art Masterclass</b>	Tracking the transition to conceptually dense formats; emphasis on Swadeshi movement triggers, tribal uprisings, Temple architecture nuances, and classical dance forms.
Test 32	<b>UPSC 2011 Core Syllabus Mapping: Indian Physical &amp; Agricultural Geography</b>	Tracking the transition to conceptually dense formats; emphasis on Monsoon dynamic theories, ICAR soil types, specific crop water requirements, and multi-purpose river basins.
Test 33	<b>UPSC 2012 Core Syllabus Mapping: Polity: Organs of Governance</b>	Tracking the transition to conceptually dense formats; emphasis on Discretionary powers of the Governor, judicial review vs activism boundaries, and PRIs 73rd/74th deficits.
Test 34	<b>UPSC 2012 Core Syllabus Mapping: Money, Banking &amp; Applied Macroeconomics</b>	Tracking the transition to conceptually dense formats; emphasis on Monetary aggregates (M1 to M4), RBI liquidity control variables, inflation indices (WPI vs CPI), and BoP crises.
Test 35	<b>UPSC 2013 Core Syllabus Mapping: Environment Acts &amp; Emerging Technologies</b>	Tracking the transition to conceptually dense formats; emphasis on Wildlife Protection Act 1972 fundamentals, global warming potential gases, space launches, and early biotechnology tools.
Test 36	<b>UPSC 2013 Core Syllabus Mapping: Modern History &amp; Art Masterclass</b>	Tracking the transition to conceptually dense formats; emphasis on Swadeshi movement triggers, tribal uprisings, Temple architecture nuances, and classical dance forms.
Test 37	<b>UPSC 2014 Core Syllabus Mapping: Indian Physical &amp; Agricultural Geography</b>	Tracking the transition to conceptually dense formats; emphasis on Monsoon dynamic theories, ICAR soil types, specific crop water requirements, and multi-purpose river basins.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 38	UPSC 2014 Core Syllabus Mapping: Polity: Organs of Governance	Tracking the transition to conceptually dense formats; emphasis on Discretionary powers of the Governor, judicial review vs activism boundaries, and PRIs 73rd/74th deficits.
Test 39	UPSC 2015 Core Syllabus Mapping: Money, Banking & Applied Macroeconomics	Tracking the transition to conceptually dense formats; emphasis on Monetary aggregates (M1 to M4), RBI liquidity control variables, inflation indices (WPI vs CPI), and BoP crises.
Test 40	UPSC 2015 Core Syllabus Mapping: Environment Acts & Emerging Technologies	Tracking the transition to conceptually dense formats; emphasis on Wildlife Protection Act 1972 fundamentals, global warming potential gases, space launches, and early biotechnology tools.

### Part 3: UPSC 2016–2025 Contemporary Era PYQs (Tests 41–60)

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 41	UPSC 2016 Advanced Dynamic Simulator: Advanced History & Intangible Art Themes	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Obscure ancient terminologies, Sangam text landscapes, miniature school variants, and heterodox philosophies.
Test 42	UPSC 2016 Advanced Dynamic Simulator: Dynamic Environmental Jurisprudence & Treaties	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over UNFCCC Paris Agreement NDCs, CAMPA rules, CRZ zonation bands, and Kunming-Montreal targets.
Test 43	UPSC 2017 Advanced Dynamic Simulator: Applied Science, space & Frontier Computing	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over CRISPR-Cas9 gene mechanics, Quantum computing mechanics, Web3 architectures, and launch vehicle deep metrics.
Test 44	UPSC 2017 Advanced Dynamic Simulator: Polity: Advanced Constitutional Logic	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Basic structure evolution lines, Tenth schedule anti-defection loopholes, and asymmetric federalism dynamics.
Test 45	UPSC 2018 Advanced Dynamic Simulator: Complex External Sector & Agriculture Models	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over REER/NEER exchange dynamics, WTO Amber/Green box regimes, MSP calculation parameters, and debt sustainability indices.
Test 46	UPSC 2018 Advanced Dynamic Simulator: Advanced History & Intangible Art Themes	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Obscure ancient terminologies, Sangam text landscapes, miniature school variants, and heterodox philosophies.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 47	<b>UPSC 2019 Advanced Dynamic Simulator: Dynamic Environmental Jurisprudence &amp; Treaties</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over UNFCCC Paris Agreement NDCs, CAMPA rules, CRZ zonation bands, and Kunming-Montreal targets.
Test 48	<b>UPSC 2019 Advanced Dynamic Simulator: Applied Science, space &amp; Frontier Computing</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over CRISPR-Cas9 gene mechanics, Quantum computing mechanics, Web3 architectures, and launch vehicle deep metrics.
Test 49	<b>UPSC 2020 Advanced Dynamic Simulator: Polity: Advanced Constitutional Logic</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Basic structure evolution lines, Tenth schedule anti-defection loopholes, and asymmetric federalism dynamics.
Test 50	<b>UPSC 2020 Advanced Dynamic Simulator: Complex External Sector &amp; Agriculture Models</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over REER/NEER exchange dynamics, WTO Amber/Green box regimes, MSP calculation parameters, and debt sustainability indices.
Test 51	<b>UPSC 2021 Advanced Dynamic Simulator: Advanced History &amp; Intangible Art Themes</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Obscure ancient terminologies, Sangam text landscapes, miniature school variants, and heterodox philosophies.
Test 52	<b>UPSC 2021 Advanced Dynamic Simulator: Dynamic Environmental Jurisprudence &amp; Treaties</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over UNFCCC Paris Agreement NDCs, CAMPA rules, CRZ zonation bands, and Kunming-Montreal targets.
Test 53	<b>UPSC 2022 Advanced Dynamic Simulator: Applied Science, space &amp; Frontier Computing</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over CRISPR-Cas9 gene mechanics, Quantum computing mechanics, Web3 architectures, and launch vehicle deep metrics.
Test 54	<b>UPSC 2022 Advanced Dynamic Simulator: Polity: Advanced Constitutional Logic</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Basic structure evolution lines, Tenth schedule anti-defection loopholes, and asymmetric federalism dynamics.
Test 55	<b>UPSC 2023 Advanced Dynamic Simulator: Complex External Sector &amp; Agriculture Models</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over REER/NEER exchange dynamics, WTO Amber/Green box regimes, MSP calculation parameters, and debt sustainability indices.
Test 56	<b>UPSC 2023 Advanced Dynamic Simulator: Advanced History &amp; Intangible Art Themes</b>	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Obscure ancient terminologies, Sangam text landscapes, miniature school variants, and heterodox philosophies.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 57	UPSC 2024 Advanced Dynamic Simulator: Dynamic Environmental Jurisprudence & Treaties	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over UNFCCC Paris Agreement NDCs, CAMPA rules, CRZ zonation bands, and Kunming-Montreal targets.
Test 58	UPSC 2024 Advanced Dynamic Simulator: Applied Science, space & Frontier Computing	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over CRISPR-Cas9 gene mechanics, Quantum computing mechanics, Web3 architectures, and launch vehicle deep metrics.
Test 59	UPSC 2025 Advanced Dynamic Simulator: Polity: Advanced Constitutional Logic	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over Basic structure evolution lines, Tenth schedule anti-defection loopholes, and asymmetric federalism dynamics.
Test 60	UPSC 2025 Advanced Dynamic Simulator: Complex External Sector & Agriculture Models	Decoding the modern era of elimination-proof multi-statement matching pairs; absolute mastery over REER/NEER exchange dynamics, WTO Amber/Green box regimes, MSP calculation parameters, and debt sustainability indices.

## Part 4: Subject-Wise Comprehensive PYQ Segments (Tests 61–100)

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 61	Subject Master Class PYQ: History & Culture Consolidation (Set 1)	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 62	Subject Master Class PYQ: Geography Comprehensive Mapping & Concepts (Set 1)	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.
Test 63	Subject Master Class PYQ: Indian Polity & Governance Frameworks (Set 1)	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.
Test 64	Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 1)	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.
Test 65	Subject Master Class PYQ: Environment, Science & Tech Integrated Applied Questions (Set 1)	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 66	<b>Subject Master Class PYQ: History &amp; Culture Consolidation (Set 2)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 67	<b>Subject Master Class PYQ: Geography Comprehensive Mapping &amp; Concepts (Set 2)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.
Test 68	<b>Subject Master Class PYQ: Indian Polity &amp; Governance Frameworks (Set 2)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.
Test 69	<b>Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 2)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.
Test 70	<b>Subject Master Class PYQ: Environment, Science &amp; Tech Integrated Applied Questions (Set 2)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.
Test 71	<b>Subject Master Class PYQ: History &amp; Culture Consolidation (Set 3)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 72	<b>Subject Master Class PYQ: Geography Comprehensive Mapping &amp; Concepts (Set 3)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.
Test 73	<b>Subject Master Class PYQ: Indian Polity &amp; Governance Frameworks (Set 3)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.
Test 74	<b>Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 3)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.
Test 75	<b>Subject Master Class PYQ: Environment, Science &amp; Tech Integrated Applied Questions (Set 3)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.
Test 76	<b>Subject Master Class PYQ: History &amp; Culture Consolidation (Set 4)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 77	<b>Subject Master Class PYQ: Geography Comprehensive Mapping &amp; Concepts (Set 4)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 78	<b>Subject Master Class PYQ: Indian Polity &amp; Governance Frameworks (Set 4)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.
Test 79	<b>Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 4)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.
Test 80	<b>Subject Master Class PYQ: Environment, Science &amp; Tech Integrated Applied Questions (Set 4)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.
Test 81	<b>Subject Master Class PYQ: History &amp; Culture Consolidation (Set 5)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 82	<b>Subject Master Class PYQ: Geography Comprehensive Mapping &amp; Concepts (Set 5)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.
Test 83	<b>Subject Master Class PYQ: Indian Polity &amp; Governance Frameworks (Set 5)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.
Test 84	<b>Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 5)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.
Test 85	<b>Subject Master Class PYQ: Environment, Science &amp; Tech Integrated Applied Questions (Set 5)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.
Test 86	<b>Subject Master Class PYQ: History &amp; Culture Consolidation (Set 6)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 87	<b>Subject Master Class PYQ: Geography Comprehensive Mapping &amp; Concepts (Set 6)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.
Test 88	<b>Subject Master Class PYQ: Indian Polity &amp; Governance Frameworks (Set 6)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 89	<b>Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 6)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.
Test 90	<b>Subject Master Class PYQ: Environment, Science &amp; Tech Integrated Applied Questions (Set 6)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.
Test 91	<b>Subject Master Class PYQ: History &amp; Culture Consolidation (Set 7)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 92	<b>Subject Master Class PYQ: Geography Comprehensive Mapping &amp; Concepts (Set 7)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.
Test 93	<b>Subject Master Class PYQ: Indian Polity &amp; Governance Frameworks (Set 7)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.
Test 94	<b>Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 7)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.
Test 95	<b>Subject Master Class PYQ: Environment, Science &amp; Tech Integrated Applied Questions (Set 7)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.
Test 96	<b>Subject Master Class PYQ: History &amp; Culture Consolidation (Set 8)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Ancient scripts, medieval administrative offices, modern socio-religious chronologies over 30 years.
Test 97	<b>Subject Master Class PYQ: Geography Comprehensive Mapping &amp; Concepts (Set 8)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Global straits, Indian mountain passes, river tributary configurations, and world climate regions.
Test 98	<b>Subject Master Class PYQ: Indian Polity &amp; Governance Frameworks (Set 8)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Preamble philosophy, fundamental rights judgments, federal disputes, and statutory oversight bodies.
Test 99	<b>Subject Master Class PYQ: Indian Economy: Strategic Core Themes (Set 8)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on Fiscal deficit paths, banking NPA stress metrics, priority sector lending, and monetary multipliers.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 100	<b>Subject Master Class PYQ: Environment, Science &amp; Tech Integrated Applied Questions (Set 8)</b>	Exhaustive vertical alignment of recurring core concepts focusing tightly on IUCN criteria listings, pollution indices, semiconductor physics, vaccine platforms, and nuclear engineering.

## Part 5: Trend Analysis & Language Pattern Decoders (Tests 101–120)

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 101	<b>Trend Decoder &amp; Language Analysis: Buddhism, Jainism &amp; Philosophies Repeat Pattern</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Analyzing how UPSC alters options across 15 different iterations of Shramana traditions.
Test 102	<b>Trend Decoder &amp; Language Analysis: RBI Monetary Framework &amp; Banking Systemic Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Tracking 25 years of questions concerning open market operations and credit facilities.
Test 103	<b>Trend Decoder &amp; Language Analysis: Fundamental Rights vs DPSP Friction Points</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Dissecting option trends from Champakam Dorairajan to modern privacy judgments.
Test 104	<b>Trend Decoder &amp; Language Analysis: National Parks, Wildlife Protected Areas Map Vectors</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like MAB zonation criteria patterns and legal overlaps between sanctuaries and parks.
Test 105	<b>Trend Decoder &amp; Language Analysis: Frontier Science Application Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like How to identify typical pattern traps in future-tech application choices (All of the above rules).
Test 106	<b>Trend Decoder &amp; Language Analysis: Buddhism, Jainism &amp; Philosophies Repeat Pattern</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Analyzing how UPSC alters options across 15 different iterations of Shramana traditions.
Test 107	<b>Trend Decoder &amp; Language Analysis: RBI Monetary Framework &amp; Banking Systemic Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Tracking 25 years of questions concerning open market operations and credit facilities.
Test 108	<b>Trend Decoder &amp; Language Analysis: Fundamental Rights vs DPSP Friction Points</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Dissecting option trends from Champakam Dorairajan to modern privacy judgments.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 109	<b>Trend Decoder &amp; Language Analysis: National Parks, Wildlife Protected Areas Map Vectors</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like MAB zonation criteria patterns and legal overlaps between sanctuaries and parks.
Test 110	<b>Trend Decoder &amp; Language Analysis: Frontier Science Application Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like How to identify typical pattern traps in future-tech application choices (All of the above rules).
Test 111	<b>Trend Decoder &amp; Language Analysis: Buddhism, Jainism &amp; Philosophies Repeat Pattern</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Analyzing how UPSC alters options across 15 different iterations of Shramana traditions.
Test 112	<b>Trend Decoder &amp; Language Analysis: RBI Monetary Framework &amp; Banking Systemic Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Tracking 25 years of questions concerning open market operations and credit facilities.
Test 113	<b>Trend Decoder &amp; Language Analysis: Fundamental Rights vs DPSP Friction Points</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Dissecting option trends from Champakam Dorairajan to modern privacy judgments.
Test 114	<b>Trend Decoder &amp; Language Analysis: National Parks, Wildlife Protected Areas Map Vectors</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like MAB zonation criteria patterns and legal overlaps between sanctuaries and parks.
Test 115	<b>Trend Decoder &amp; Language Analysis: Frontier Science Application Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like How to identify typical pattern traps in future-tech application choices (All of the above rules).
Test 116	<b>Trend Decoder &amp; Language Analysis: Buddhism, Jainism &amp; Philosophies Repeat Pattern</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Analyzing how UPSC alters options across 15 different iterations of Shramana traditions.
Test 117	<b>Trend Decoder &amp; Language Analysis: RBI Monetary Framework &amp; Banking Systemic Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Tracking 25 years of questions concerning open market operations and credit facilities.
Test 118	<b>Trend Decoder &amp; Language Analysis: Fundamental Rights vs DPSP Friction Points</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like Dissecting option trends from Champakam Dorairajan to modern privacy judgments.

TEST NO.	UPSC PYQ SYLLABUS FOCUS	HIGH-YIELD FOCUSING AREAS & CORE CONCEPTS
Test 119	<b>Trend Decoder &amp; Language Analysis: National Parks, Wildlife Protected Areas Map Vectors</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like MAB zonation criteria patterns and legal overlaps between sanctuaries and parks.
Test 120	<b>Trend Decoder &amp; Language Analysis: Frontier Science Application Traps</b>	Strategic option-parsing drills focusing intensely on language patterns and recurring conceptual pillars like How to identify typical pattern traps in future-tech application choices (All of the above rules).
