15	Final Simulator Mock 3	Exact TNPSC Group 4 difficulty level standard. Designed to test speed, elimination techniques, and pinpoint accuracy.

Execution Strategy for Aspirants

- **Test Gap:** Maintain a 3 to 4-day gap between foundational tests (Phase 1) for thorough study and revision.
- **Error Tracking:** Maintain an "Error Notebook" to log incorrect answers, especially in Tamil grammar and math shortcuts, ensuring mistakes are not repeated.
- **Target Scoring:** Aim for 95+ in General Tamil, 23+ in Aptitude, and 60+ in General Studies to comfortably cross the cutoff.
